

FlySto

Requirements

- **UI (/UX) Designer**
- Web and mobile app design experience
- If you are interested in aviation or ever considered obtaining a pilot's license, it's a plus. If you are a pilot, it's a big plus!

Project description

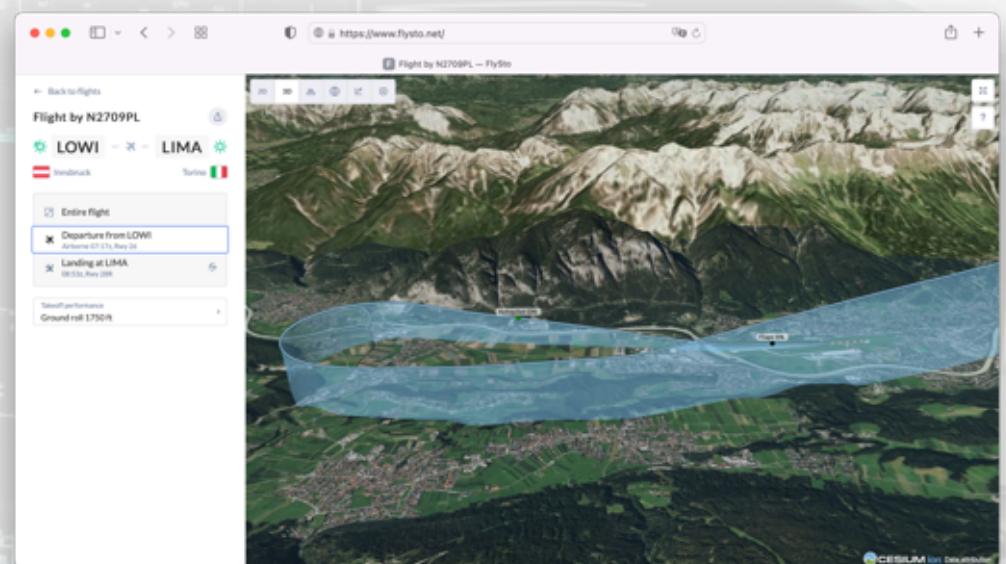

Server, web-client, Android, and iOS apps. New company with of a small, distributed team.

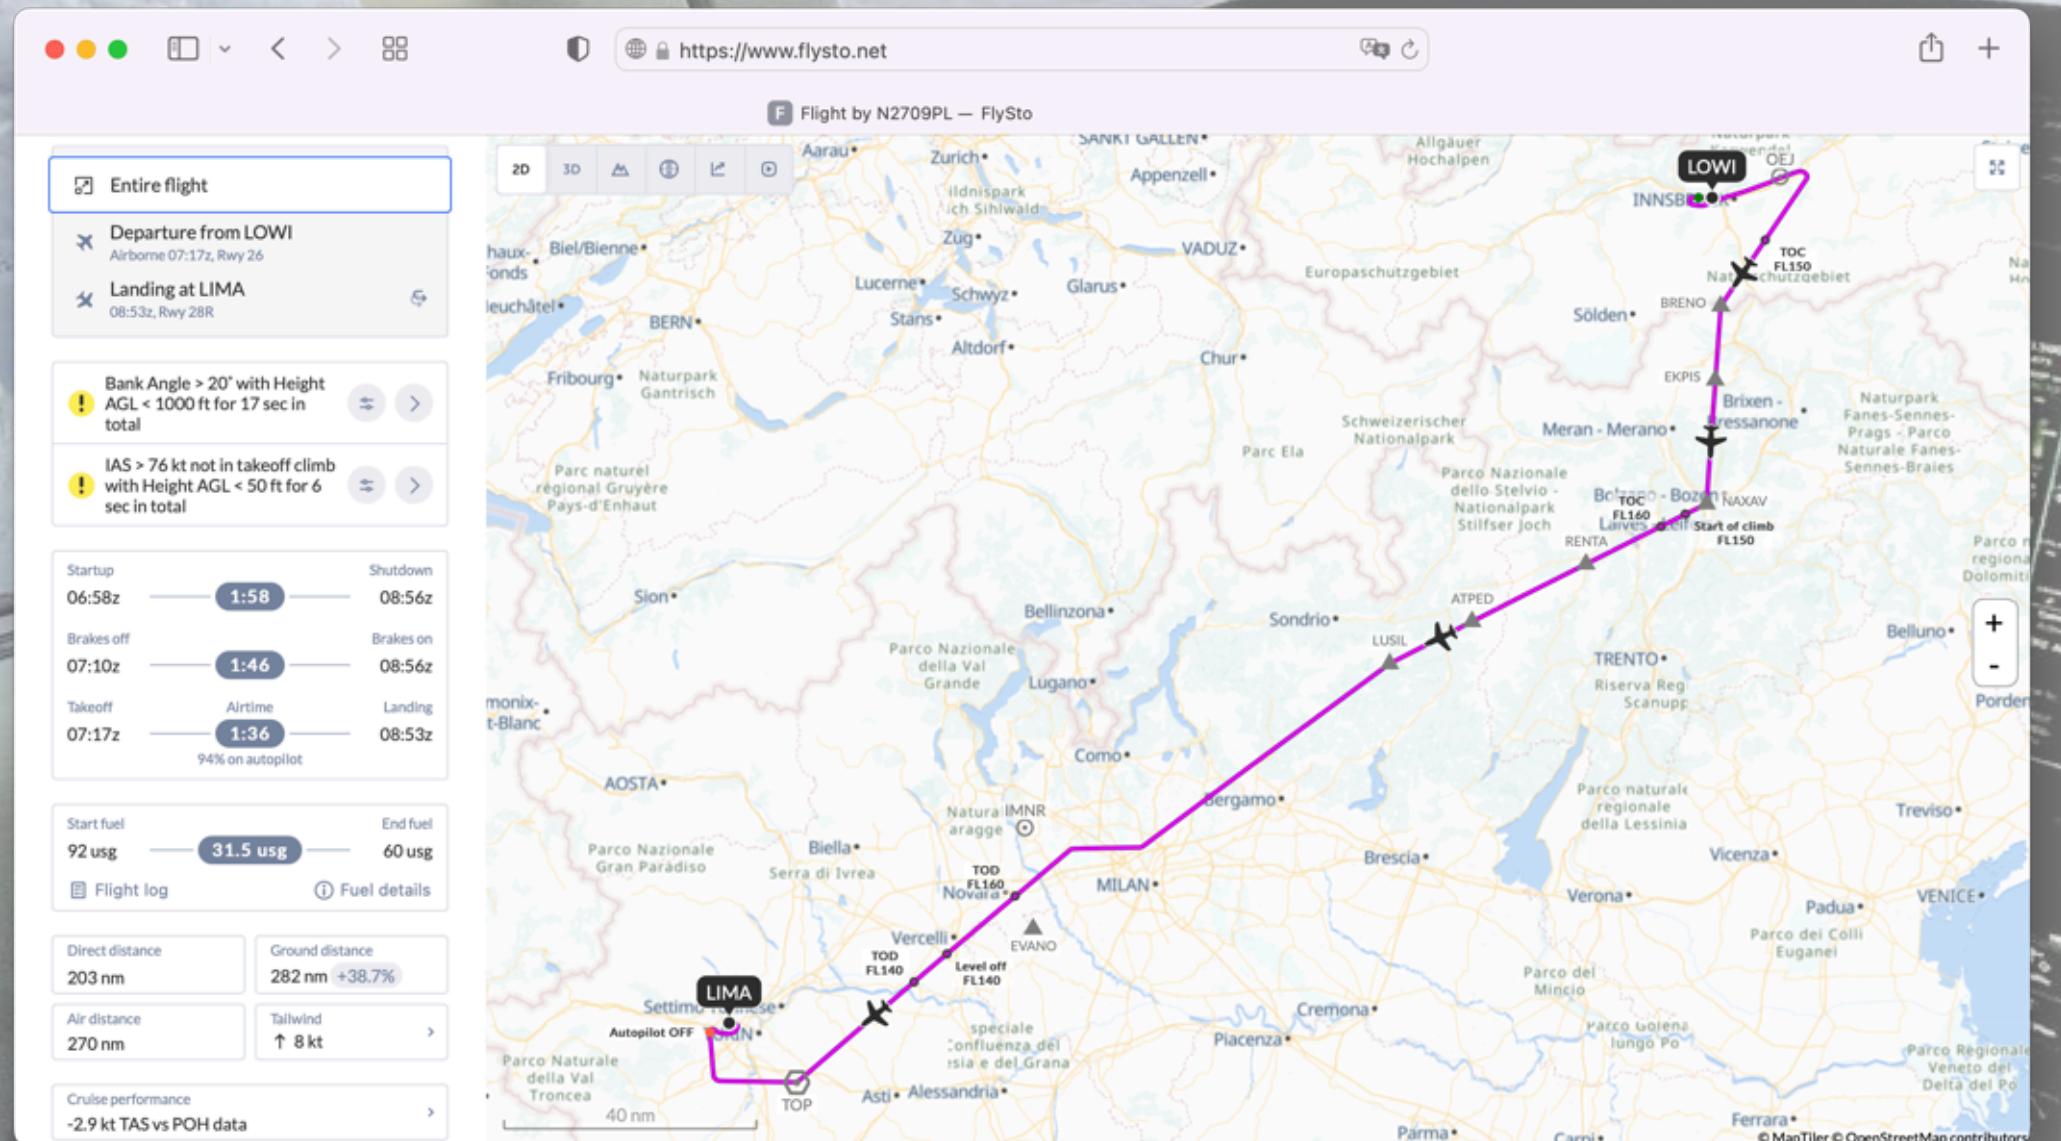

Modern aircraft, even little ones, have sophisticated avionic systems that measure a variety of flight and engine parameters and record them into internal storage or supplied memory card. Produced log files contain enough data to literally "replay" the whole flight, displaying the precise position and orientation of the aircraft, as well as all instrument indications available for the pilots.

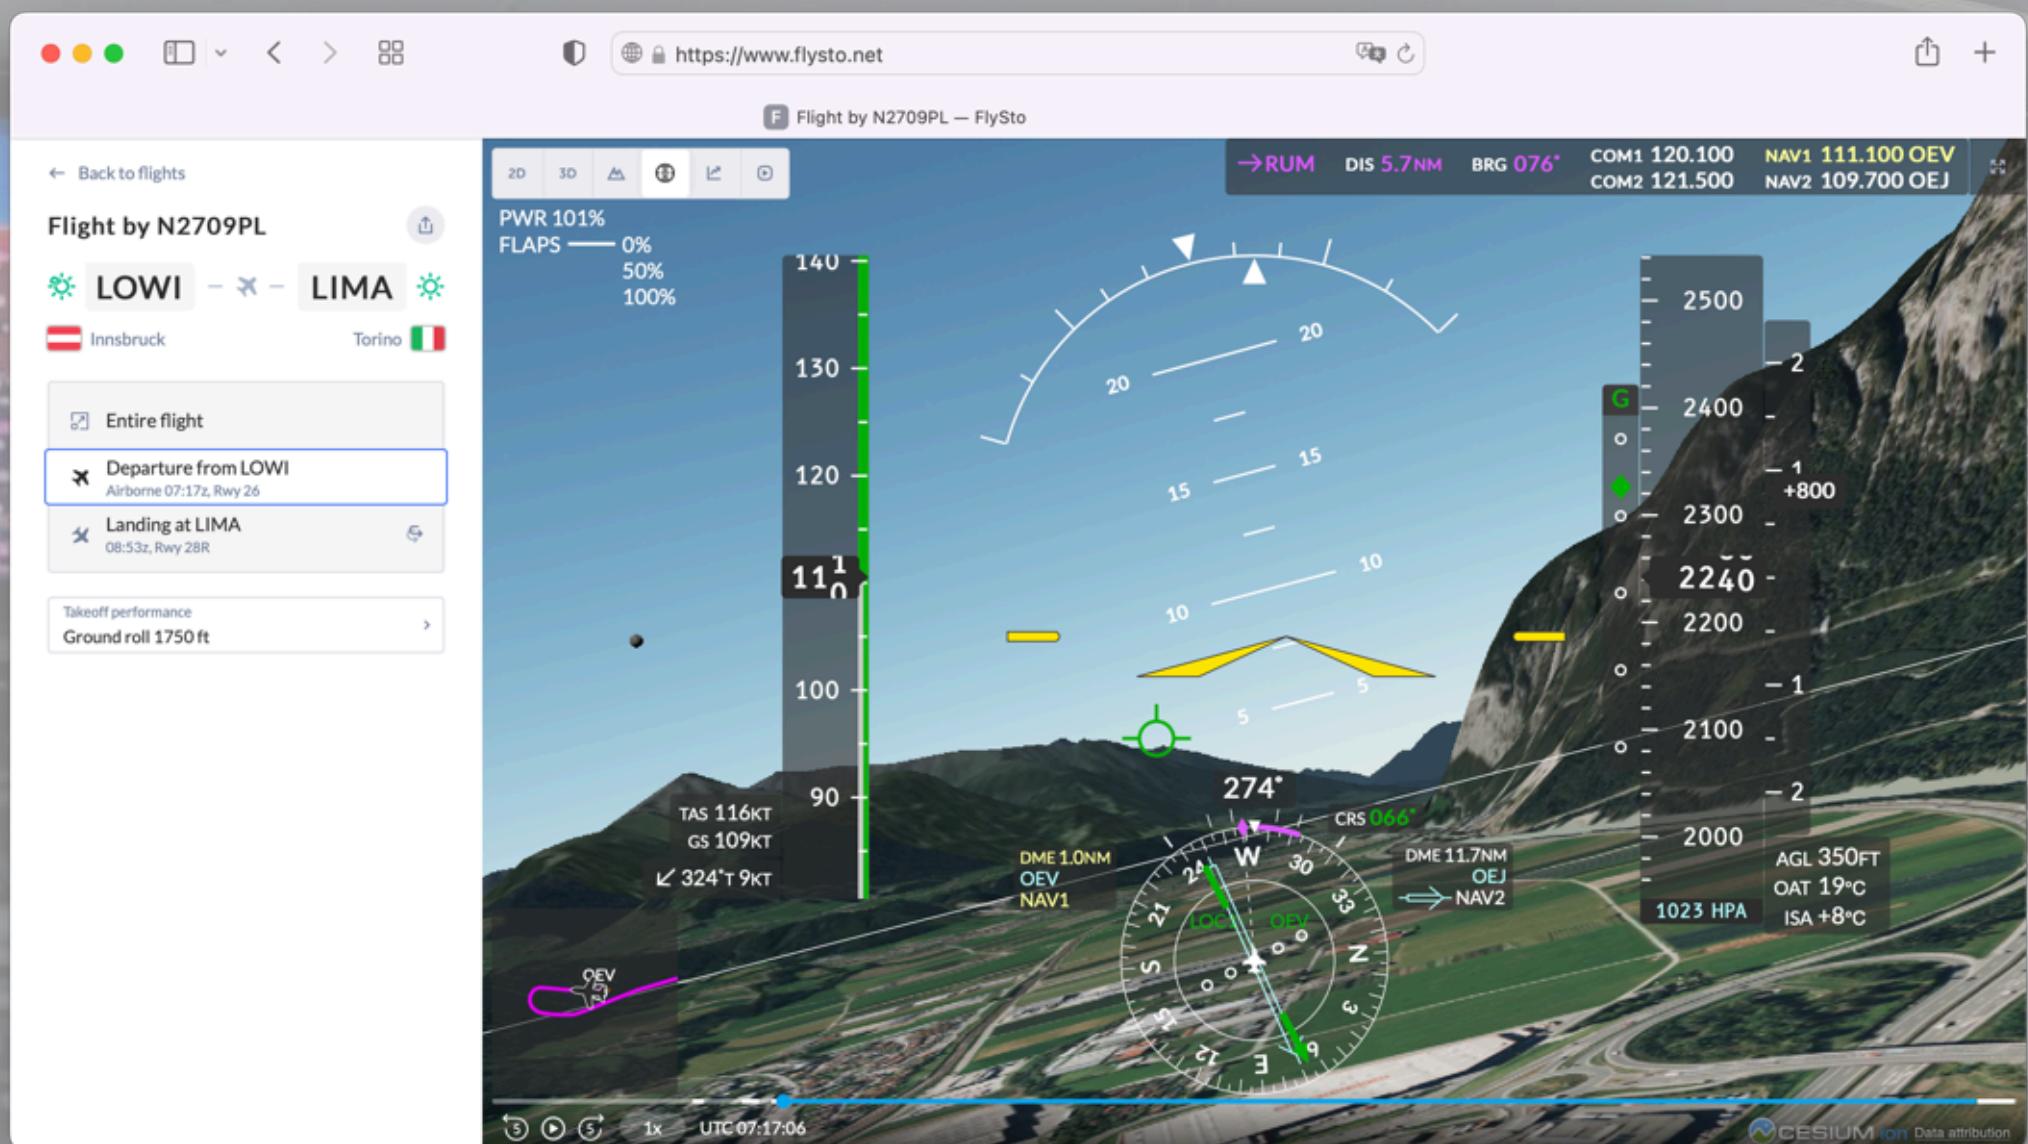

We develop **FlySto**, a product that lets pilots store and analyzes their flights from different perspectives both on the web and on mobile devices.

Job description

Seeking full time employed or contracted UI (/UX) designer. Work remotely and self sufficiently according your schedule to design the user interface of the web client as well as Android and iOS applications. You will work with graphs, maps, and 3D models which often provide a challenge for a designer. See below for some visuals and more details.

F Flight by FlySto

→LOAN DIS 0.7NM BRG 089° COM1 122.655 NAV1 110.900
COM2 121.500 NAV2 110.900

Entire flight

- Departure from LOWG Airborne 10:31z, Rwy 35C
- Missed approach at LOAN 11:00z, Rwy 09, min -40 ft AAL
- Touch-and-go at LOAN 11:05z, Rwy 09
- Landing at LOAN 11:12z, Rwy 09**

Compare with average pattern

Below 500 ft

Wind, kt ← 8-16 ↓ 3	Descent angle 3.9°
IAS 78-104 kt	Max descent rate 1067 fpm
Max bank 31°	Power 13-30%

At 50 ft

IAS 78 kt	Pitch -2°
--------------	--------------

Flare

Duration 7 sec	Lateral drift Low
-------------------	----------------------

Touchdown

IAS 60 kt	Pitch 5°
--------------	-------------

Impact

LOWG - LOAN

PWR 32% FLAPS 0% 50% 100%

TAS 84KT GS 91KT 173° T 12KT

062° CRS 086°

12:05:06PM

Biggest fine print ever

- No „Human Resources“ at FlySto, only Humans
- Full time (employed or contracted position, your pick)
- Funding secured (as is your remuneration)
- Work remotely on your own schedule
- Flat hierarchy (and that's already an exaggeration)
