**Description** Here we have a wonderful example of a TB20, however CN comes with some added extras which make her stand out. First of all she is fitted with TKS (anti-ice) which is an incredible piece of equipment to have on your aircraft to keep it safe should you fly into icing conditions. Secondly she is a 5 seat cabin and is in immaculate condition, not often do you see an interior to such a high standard, the tan leather seats makes this aircraft comfy and stylish. Moving on to her avionics stack, she is fitted with the Avidyne IFD 540, Garmin GNC 255 nav/com, Bendix King Autopilot with Altitude and heading hold along with the Garmin 335 transponder ( Please see below for the full list of equipment) Not forgetting the CGR-30P engine monitor which comes with a whole host of benefits- including fuel monitoring to not only show how much fuel is left in your tanks but your current fuel burn, all your temperatures, any warnings and much more. A brilliant set up to have in a machine like this, she is a real credit to her current owner. If you are looking for a great complex aircraft which is stable, quick and a good IFR tourer for your family to explore this is the aircraft for you. Please get in touch today.
